Hmi F#mi D A E

1. Dancing ray of light I saw in the eve -

Hmi F#mi D

a maiden as fair as dew in the clearest morning.

Hmi F#mi D

With grace she walked, with light in her eyes shining.

E Hmi F#mi D A E

The sweetest dream came true beneath the star and the green leaf.

Mezihra - NÁSTUP flétna + 2. kytara + basa

2. Years that passed filled my heart with grief so dark.

On the edge of fear I was doomed to walk day after day
and wandered where the sky was dark and stars so far away.

Oh but now the long desired morn is called by the song of a lark.

Mezihra

3. If the world was changed and to ruins fell mountains and shores of the sea

if the stars went out and the undying sun dimmed in the sky

if the wide sea roared where green grasslands(fields) used to lie

I would say t'was good, for Lúthien for a while should be...

Mezihra

4. Dancing ray of light I keep in my heart

as clear as dew in the morning of a hopeful spring.

The birth of a great song in my heart I dare to sing

of the sweetest dream that came true and forever shall last.
