 eve - ry gate, to - ge-ther, we change your piece of life, to - ge-ther, to the East we'll drive!

Go East, Mordor under sky
 Go East, where the shadows lie
 Go East, we like fire and steel
 Go East, now the ways are clear!

Together, we all love the blade
 Together, we break every gate
 Together, we change your piece of life
 Together, to the East we'll drive!

Go East, command us, Red Eye
 Go East, now the Elves must die
 Go East, we like fire and steel
 Go East, like the iron wheel!

Oh Morgoth, all now sing to you
 Oh Morgoth, there's no tree high grew
 Oh Morgoth, your Servant Mighty came
 Oh Morgoth, war's a funny game!

Go East, night is very dark
 Go East, eye is burning mark
 Go East, stone and dust and heat
 Go East, human meat to eat!

Go East, where the Gondor stay
 Go East, we must break away
 Go East, it is New life deal
 Go East, now the ways are clear!

Oh Dark Lord, lances, sabres all
 Oh Dark Lord, long time towers fall
 Oh Dark Lord, sometimes blow black breath
 Oh Dark Lord, sometimes close to death!

I never had a mum, my Lord
 You're the only one
 I will fight in your name, my Lord
 Now we feel the same!

Go East, Mordor under cloud
 Go East, orcs now march so proud,
 Go East, Elves, come in the gloom,
 Go East, like the fire of doom!
